Note.—The Deputy Amildar of Alur was also present.

1. Read Executive Engineer's docket No. 449, dated 28th September 1898, requesting that Rs. 780, being the cost of widening the bund of Haltore-Megalkere for the purpose of a cart-track, be placed at the disposal of P. W. D.

Resolved that the question of providing funds be reserved for consideration at the next meeting pending report of the Amildar of Belur on the desirability of widening the bund in question for the above purpose.

2. Read Government Proceedings No. 2347-8—L. F. 2-92, dated 19th August 1898, declining to grant Local Funds General for petty local works.

Resolution.—Recorded with the observation that sufficient funds cannot be provided from the District Fund for sinking drinking water wells in the several taluks of the district unless Government would kindly undertake to relieve the District Board from providing funds for making such roads as Bisle and others, and as the taluks of Arsikere and Channarayana and a few others suffer most from scarcity of water during the hot weather, the Government be moved to sanction for this year, at least Rs. 5,000 from the Local Funds General.

3. The question of levy of toll at the Holé-Narsipur bridge as it is now completed and opened for traffic, was placed before the Board.

Resolved that Government be requested to accord early sanction for the above.

4. Read the Dasara subject regarding the opening of a road from Kattaya to Halekote.

Resolved that the question be retained for further consideration, as the members present are of opinion that the opening of a road from Uduvare to connect with Hassan-Holé-Narsipur road is more important than that of Kattaya and Halekote, for the former one will open up the richest valley irrigated by the Hemavati channel.

5. Read the Dasara subject regarding the construction of a bridge across the halla on the Arsikere-Huliyar road.

Resolved that the construction is desirable and that the Executive Engineer be meanwhile requested to investigate the matter.
